The School of Chemistry at UNSW invites applications for a short-term visiting lectureship from an eminent academic in the discipline of chemistry to spend a period of 4 to 6 weeks within the School. The successful applicant will perform two key roles during his/her time here:

- to meet with UNSW researchers aimed at establishing links and potential collaborations and to present a research lecture to the School
- to present a lecture series of 12 lectures to a group of 3rd/4th year students (a component of the undergraduate Topics program), including assessment.

The aim of the visit is to further enhance the fine international standing of the School; the visitor will be of adequate international standing such that he/she will bring additional gravitas to the School and provide a distinct facet to higher year teaching. Face-to-face interactions between the visitor and UNSW researchers will facilitate research collaborations, potentially leading to new funding opportunities. The visit will also allow the School to extend its branding amongst influential senior academics in the discipline.

Budget allocation: $8,000

Applications are to be made by email directly to the Director of Research, A/Prof. John Stride and should include:

- a full CV of the applicant
- an outline of the U/G lecture series (12 x 50 minute lectures), indicating the field and proposed assessment tasks
- a time period in which the Lectureship would be taken up (ideally mid-year)
- a letter of support from a host academic within the School

Applications may be submitted at anytime, but must be completed & submitted to the School by the end of the calendar year in order to be considered for a Howard Fellowship during the following 12 months. All applicants will be notified of the outcome by 14 February. The selection process will be undertaken School Executive Committee and will be final.

A/Prof John A. Stride
